

VISUALISING THE UNIVERSE

Scientists are keen to hear about your discoveries. Use graphs, diagrams, drawings, photos or infographics to create a poster presentation on your findings.

Hi, space scientist!

I'm Naomi Rowe-Gurney and I study giant planets. I hear you've made some interesting discoveries and observations with your telescope. Create a visual poster that shows fellow researchers like me what you have discovered and the potential this has to change what we know about the Universe.

Zap for
inspiration!
